

GRACE POINT AIR & GROUND LOGISTICS LLC

Commercial Capability Statement

TIME-CRITICAL AIR & GROUND LOGISTICS

Capability Statement

Grace Point Air & Ground Logistics LLC provides responsive commercial transportation support for companies that need urgent pickup, delivery, documentation, and dispatch communication. The company supports aviation, healthcare-adjacent, automotive, industrial, manufacturing, and general B2B supply-chain needs across the Mid-Atlantic and Northeast.

Dispatch: 640-248-9099
Direct: 862-214-8366
Email: dispatch@gracepointagl.com
Website: gracepointagl.com
Base: Florence, New Jersey

Core Services

AOG & Aviation Logistics	Airport, MRO, aviation parts, vendor-to-airport, repair-component, and AOG-sensitive movements.
Medical & Pharmaceutical Courier	Courier support for medical suppliers, pharmacies, healthcare-adjacent facilities, samples, documents, and routed medical deliveries.
Expedited Ground	Time-critical regional pickup and delivery for shipments that cannot wait for standard parcel or LTL schedules.
Dedicated & Scheduled Routes	Recurring commercial routes, milk runs, planned deliveries, route documentation, and direct dispatch coordination.
Automotive & Industrial Parts	Parts movement for dealers, repair facilities, manufacturers, industrial distributors, and service operations.
B2B Courier	Direct business-to-business transportation with proof-of-delivery, communication, and accountability.

Service Area

Primary service coverage includes New Jersey, New York, Pennsylvania, Delaware, Maryland, Washington, DC, and surrounding Mid-Atlantic and Northeast commercial markets. Longer-distance requests are reviewed based on route, timing, capacity, cargo type, and scheduling.

Differentiators

Responsive Dispatch

Quote and shipment requests route to dispatch@gracepointagl.com for operational review and follow-up.

Proof of Delivery

The platform supports POD records, delivery photos, customer visibility, and audit-ready shipment documentation.

Freight Operations Discipline

Internal rate confirmations, driver screening workflows, cargo-claim tracking, and document controls are built into the operations platform.

Business-Critical Focus

Services are positioned for shipments where timing, communication, chain-of-custody awareness, and accountability matter.

Industries Served

Aviation MRO shops and parts distributors; medical suppliers and pharmacies; manufacturers and industrial parts distributors; automotive parts operations; and general B2B customers needing time-sensitive freight, courier, or scheduled-route support.

Vendor Packet Status

Grace Point can provide finalized vendor documents through a private onboarding channel when available. W-9, certificate of insurance, payment/banking details, private vendor packets, and customer-specific documentation are not published on the public website.

Important Accuracy Note

This capability statement intentionally does not list client logos, client history, insurance limits, certifications, banking details, bonding details, or operating authority claims that have not been finalized and verified. Update those items only when they are real, current, and supported by official documents.
